Between Floors

Selin

Selin is a magazine about beauty and fashion. As boring as it may sound on the first look, we aim to tell stories. We are looking for independent, strong, beautiful people around the world to hear their stories, to make their points of view considered. All races, all nationalities, all ages - we cherish the individuality of all and we want to share our views with our audience.

Amsterdam, Netherlands.

Between Floors

«Between Floors» is a fashion editorial set within the shifting interiors of Gambino Hotels, Munich. Through three distinct looks, the story moves between softness, elegance and a sharper, more assertive presence, using colour, reflections and architectural lines to shape a contemporary portrait of femininity.
